

NOVAWALL®

MAHARAM FLOCK 901892-003 HIGHLIGHT

April 2016

Stretching Imagination

All of us at Novawall® hope this deconstructed Novawall® mock up featuring Maharam Flock will tickle your experience with Novawall® and felt fabric. Novawall® is site fabricated and installed to meet your detail requirements. Design something acoustical.

WHAT CAN I DO WITH NOVAWALL®?

Shapes, Geometries, Custom Details, Wall to Wall, Multiple Color Combinations. With Novawall® let your imagination be your guide. Novawall® is only limited by the width of the textile. Go on, design something tack-able.

WHAT CORE MATERIAL SHOULD I USE?

In this Novawall® deconstructed mock up are two core substrates—Knauf **Acoustical Smooth Board** with Ecosse Technology and US Gypsum Micore. Knauf is UL Environment certified formaldehyde free, Greenguard Certified Gold and it has the highest percentage of Post Consumer Recycled Content of any Fiberglass acoustical board made in the US. Micore is used any time you want a tack-able substrate. Design something with shapes.

Maharam Flock is 63" wide, 100% Polyester and available in 17 colors. Contact Maharam today 800.645.3943

Novawall®

- Exciting shapes
- Large Geometries
