Let Your Imagination Run Wild

Novawall® is the time-tested standard for exquisite fabric wall and ceiling applications in almost any environment. Our patented site-fabricated system molds and adapts to your ideas insuring a meticulous finish.

Bring *life* to uninspired walls with Novawall®'s broad palette of track styles and virtually infinite combinations of fabrics, colors, patterns, textures, custom graphics, acoustic and tackable cores. Novawall® works closely with all fabric manufacturers and creates beautiful works of art that change the look and sound of a room.

Novawall® and its exclusive dealers have created "suspended" fabric panels in hundreds of buildings to improve acoustics. We didn't invent the cloud but our clouds are serviceable and the fabric can be updated.

Design with the freedom of knowing your Novawall® dealer has the tools and experience to deliver what you have created.
