**\*\*\*\*\*Discounts do not apply to NOVAWALL FABRICS\*\*\*\*\***

**Notes:**

1. All prices FOB origin, point of shipment. Order by NSI Part Number.
2. Standard bolt size is approximate.
3. All Novaspan® fabric is Class A / I per ASTM E84.
4. Any claim for damage, shortage or incorrect Products must be made to NSI in writing within **fourteen (14) calendar days** of Distributor's receipt of Products. Failure to make such claim within the 14-day period shall constitute acceptance of the merchandise and waiver any such shortages, errors or other claims. Claims on shortages will not be considered if the fabric has been cut. NSI will not be responsible for labor charges or claims of consequential damages.
5. Novawall strives to provide Novaspan fabric of the highest quality and with a minimum number of flaws recognizing that flaws are inherent in the fabric manufacturing process. Further, industry trade groups establish the standards for the definitions and the acceptability of fabric with flaws and Novawall is obligated to accept fabric from the manufacturer that contains a limited number of flaws within the established criteria. Flawless fabric just does not exist in bolt quantities. The best way to minimize flaws is by submitting individual panel sizes needed when placing your order. This will give Novawall the best opportunity to insure you have usable yardage for the installation. If you would like for us to cut panel sizes on orders of a complete roll or more, the cut rate will be charged.
6. Damage Claims: Novawall Systems, Inc. is not responsible for damages to Novaspan® in shipment or in storage. Distributors should carefully inspect all items at time of delivery and note any obvious damage on the delivery receipt. For the customer's protection, such obvious or subsequently discovered concealed damage must be reported immediately to the carrier.
7. Custom colors of NS16 are available. Minimum quantity for custom orders is 350 LY. Production will require AT LEAST 6-8 weeks of lead time.
8. NSI, in its sole discretion, may accept **UNCUT** fabric which Distributor desires to return for credit against the account of Distributor. All fabric accepted for return by NSI will be subject to a fifteen percent (15%) restocking fee.
