CONE

10 Circular platforms sit 3" apart and rest on rectangular supports. Great for hanging above your desk or in an open lobby area. Made entirely of polyester acoustic felt.

BAFFLES

Baffles hang from the ceiling to span across any sized space. Three Possible installation methods provide different aesthetics, and custom shapes and sizes are available.

OVAL GRID

10 Circular platforms sit 3" apart and rest on rectangular supports. Great for hanging above your desk or in an open lobby area. Made entirely of polyester acoustic felt.

2D CLOUD

Choose your pattern and your colour. These simple acoustic clouds hang with aircraft cable extending from an aluminum frame. Can be hung on a flat or angled plane.

RAIN CLOUD

Acoustic felt shapes hang from nylon thread and appear to float. Pick your colours and your shapes to create unique styles.

CASCADE

Patterned panels hang from the ceiling and attach to the floor with gaps in between to loosely divide any space. Choose your patterns and colours. Aluminum trim on panels can be powder coated to enhance the design, or left gray for an industrial look.

PRIVACY NOOK

The Privacy Nook sits on top of your large workspace to provide some privacy while still maintaining an open-concept feel, and is entirely custom. Mix and match the different styles and functional options.

DESK DIVIDER

These simple desk dividers visually separate workspaces. Pick between 3 different feet to suit your needs. Available in custom sizes.

2D COVERING

With 3 different styles to choose from—1 layer with exposed wall, 2 coloured layers, or 1 layer hanging from the ceiling—these sheets look great on any wall, or hanging to loosely divide open spaces.

WALL TILES

Tiles stick to your wall using a common wall adhesive, such as contact cement. They can be pushed together or separated with a gap to provide different styles.

DESKTOP

WALL

CLICK WALL

These partitions add style and privacy to any space. Choose your patterns and colours. Click Wall panels easily click together to assemble into any configuration in just minutes.

PARTITION

Fiberglass insulation (optional) can be placed inside the partition to provide additional acoustic support. The partition is easily assembled or disassembled in minutes with no hardware or tools.

FLOOR
